OUR FIRM

Nevium provides solutions for valuing, managing and monetizing intellectual properties and intangible assets. We work with entrepreneurs, corporations, legal counsel and IP owners to analyze and maximize the value of IP and intangibles such as copyrights, trademarks, patents, brands, publicity rights, websites, customer lists, social media activities, new technologies, and other proprietary assets.

We are dedicated, experienced managers who provide clear, comprehensive and thoroughly researched analyses, reports and evaluations. Our principals have a CFA, CLP, an MBA and an MA with over 30 years of combined business experience. We have worked with clients from a wide range of industries, including: apparel, food, medical technology, not-for-profit, entertainment, transportation, publishing, airlines, music, retail, sporting goods, manufacturing and distribution, photography, trade associations, education and professional services.
